

I made an individual choice to abandon the airways of commercial radio due to the unending commercials and talking heads that think arguing with each other is entertainment. I made the choice to utilize satellite radio, and I disagree with the NAB who wants to limit what I should be offered as a service from my satellite radio provider.

I ask that the FCC reject NAB's Petition 04-160 and allow the free markets and the consumers decide what they want.

Thank you.
